

Where Are They Now?

St Elizabeth Catholic High School Regional Arts Program

Drama

Joseph Sinopoli

Art discipline? Drama

Year of Graduation? 2008

Education Double major in Immunology and Biochemistry at the University of Toronto

What is your current job and what does that entail?

Doctor of Chiropractic – involves assessing and diagnosing ailments of the neuro-musculo-skeletal system and treating/rehabilitating patients to a full recovery.

Please comment on any skills you feel you have developed in the RAP

The drama program helped teach me the value of dedication and commitment. As students we were always encouraged not only to give our best on stage, but to appreciate the importance of the hard work (both individually and as a team) that is involved. Daily I find myself striving to produce the best results from my patients via the skills of dedication and commitment, skills that I know the RAP program helped instill in me.

What is your most fond memory of RAP

Grade 11 production of Tony and Tina's Wedding, alongside the Grade 12 RAP class.

What piece of advice would you have for current students?

Really appreciate how well the RAP program can prepare you for post-secondary education. The program was hard work at times, but that's what is to be expected after graduation. And RAP will give you the tools required to succeed in college/university.

Why did you choose to attend St. Elizabeth?

RAP drama program

What else have you been up to– anything that is interesting or you are proud of that has brought you to where you are today!

In the last decade I've visited Europe, Asia and Central America, I started my health care practice in Vaughan, I married my beautiful wife (a St. E's alum!) and am the proud father to our son, Luke.

Please feel free to add anything else that you would like to share

I'm proud to be a graduate of the RAP program at St. Elizabeth. Although I did not peruse a career in drama and theatre, I am so glad I enrolled in the program and would not have done anything differently. Some of the fondest memories of my life are of my 4 years in the program.
